Careers in Bioinformatics

Bring your questions to the VanBUG Bioinformatics Careers Panel Thursday, April 14, 6-7pm. Panelists include a recent Bioinformatics Training Program graduate currently doing a post-doc at the Genomics Institute of the Novartis Research Foundation, an entrepreneur who co-founded Zymeworks, a computational biotech company, a sage academic who has participated in many UBC hiring committees, and a bioinformatics group leader from the largest bioinformatics employer in BC.

Panelists:

* **Benjamin Good**, PhD, Postdoctoral Fellow, Genomics Institute of the Novartis Research Foundation

* **Inanc Birol**, PhD, Bioinformatics Group Leader, Michael Smith Genome Sciences Centre, BC Cancer Agency, and Adjunct Professor, School of Computing Science, Simon Fraser University

* **Anthony Fejes**, MSc, Co-founder, Zymeworks and PhD Candidate, Michael Smith Genome Sciences Centre, BC Cancer Agency

* **Phil Hieter**, PhD, Professor, Michael Smith Laboratories, University of British Columbia

A 1-hour moderated panel discussion will be followed by networking over pizza and refreshments. Make sure that your question gets answered by submitting by email to dev@vanbug.org.

Thursday, April 14, 2011, 6:00 pm
